

We've been advised that highways permits have now been raised and as per our current plan, our build partners will begin to start the build programme, to enable these villages to access a full-fibre broadband network.

These dates are as follows:

Fowlmere: 19/10/20
Thriplow: 26/10/20
Newton: 02/11/20

Please be advised that we will also be sending a communication to residents in the village to inform them of the commencement of these build works. Our build partner will also issue an advanced notice letter will also be sent, as appropriate, ahead of works being carried out who will place advanced road works signage around the village.

We always aim to keep disruption to a minimum, however in some circumstances, due to the nature of the works we carry out, we may need to temporarily close some roads to complete this.

Please visit [One Network](#) to keep up-to-date with road closures and diversions in your area.

Working safely during the Coronavirus pandemic

Whilst the situation with COVID-19 pandemic is ever evolving, we remain committed to continue to monitor daily reports and advice from Government, Public Health England and our Local Authority.

If you have any questions about this project, or your residents would like to know more information please direct them to our customer services team on 01376 562 002. You can also email us at:

service@countybroadband.co.uk

We're looking forward to helping your residents access future-ready, full-fibre broadband services.

Kind Regards

The County Broadband Communications Team
