3.	<p>MINUTES OF THE PARISH COUNCIL MEETING OF 15TH DECEMBER 2015: The minutes were agreed and signed as a true record following the meeting.</p>	
4.	<p>MATTERS ARISING: Comments re the traffic bid would be sent to Cllr Howe, namely Cllr Topping to attend with him on 22nd Jan to the bid, Cllr Roberts apologised but will follow up the Waddon speed check this week and the PC are in support of conducting speed checks in the villages themselves.</p> <p>Clerk to also minute that the PC is very sorry to see Mike Cooper leaving and thank him for his efforts.</p> <p>Cllr Crowther reported a crash at the Foxton junction which may have been caused by the lack of white lines?...</p>	Clerk Cllr Roberts
5.	<p>COUNTY COUNCIL AFFAIRS: Cllr Topping was unable to attend the meeting but sent the following report, which was circulated separately by e-mail, with headlines given at the meeting:</p> <p>“1. Local authority budgets <i>The district council and the county council both face difficult decisions about what if any increases in council taxes should be decided for next year. The county has been offered the opportunity by the government to put its part of the council tax up by 4% because of the costs of adult social care. The county council has yet to decide on that, but may go for a lesser increase of 1.99%. There is a drive to reduce costs within the county, including rationalising the senior officer management structure. The challenge will be whether savings can be realised quickly enough.</i></p> <p><i>There is no doubt that the county faces real financial problems, and the audit committee, of which I am vice-chair, was told by our external auditors, PWC, that the county needed to catch up in terms of coming up with a transformation plan to save money and transform services.</i></p> <p><i>I Attended two budget related meetings in recent weeks, one to find savings from the Public Health budget, and one to sign off the county accounts. So budgets and their management form a big part of the picture at the moment. The county is trying to see if it can save the lollipop road safety services, and has announced that it will find a way of keeping the streetlights on at night between midnight and 2 am rather than turning them off. I have asked the health team to see if we can protect an immunisation nurse post, as the county's immunisation levels are below national levels.</i></p> <p>2. Local county planning issues <i>Vetspeed submitted further information at Christmas in support of their bid for the Pet Crematorium energy from waste plant on the A505. The County Council is inviting comments by 31 Jan but the</i></p>	

matter will not come to the County planning committee until 10 March 2016.

3. Highways

I met senior county highways engineer, Emma Murden before Christmas. Now that Mike Cooper is leaving at the end of this week, the contact for highways work is Evan Laughlin, the district highways manager. He now has Peter Taylor working to him in Mike's old role, and he started this week. My recommendation to the parish council is to invite Evan and or Peter out to point out any current issues and familiarise them with Fowlmere's concerns. Other parish councils are doing this.

Emma was keen to stress the importance of logging everything on the county council's on-line reporting system. NB When the system reports a matter as closed that simply means the job has been allocated, so it is worth keeping an eye on progress.

I asked Connecting Cambs if they can put hazard tape at the junction box and they said this would be done.

The traffic management plan for Cereals 2016 will be formulated shortly - I am seeking a meeting to understand the impact on Fowlmere and input where we can.

I will be attending a briefing from the county on their plans for the full length of the A1307. I recently also attended a meeting with the representatives of SmithsonHill who are seeking to develop a bio-tech/agritech site on land to the south east at the McDonalds roundabout at Sawston.

I have said to the county that if you want to push "community resilience" and having people doing more things for themselves, you have to make it easier for that to happen, especially when the village is paying for it. I have put forward a proposal for a seminar for local PC clerks to build a better knowledge base of how to take projects forward with the county.

4. In other news...

*There is a consultation on the **county's libraries**, including the mobile library service, and it will be important that people comment. Previously savings have been made from back office support, management costs, a more self-service approach, some service reductions and other efficiencies across the service. Now, the Library Service has to make some tough decisions and the Council is asking people for their opinions about the options.*

Proposals include a combination of reducing opening hours at larger libraries, reducing management and professional staff and spending less on new library stock. Other options are still being discussed by the Council, including budget proposals for the Mobile Library Service and possible changes to Archives and Local Studies. Although current options do not include transferring the running of any of the 32 libraries to the community at this stage, this may still be an option the following year when even more savings are needed.

The Consultation which can be found online at www.cambridgeshire.gov.uk/libraryconsultation and closes on Monday, 15 February.

***Wellcome Trust plans for the Sanger Institute** at Hinxton. There are proposals to build 1,000 houses as part of the 25-year plan to develop the site. Not surprisingly this has met with dismay locally. Hinxton are keen to join in any Neighbourhood Plan work with other local villages. This area is also facing a agri-tech site proposal on what would have been the Hanley Grange site.*

*As County Council health committee member I have raised concerns about the ending of the **UnitingCare contract to provide services for older people** across Cambridgeshire. The impact on the local health economy of the deficit (that has been created by the failure of the contract) of £8.4m needs to be understood. I have been interviewed on regional TV to voice these concerns."*

This has been explained several times before and it's the <i>Parish</i> annual meeting, not the PC AGM, which simply reports what has happened during the year and is an opportunity to ask questions on any reports made at that meeting.</p> <p>Secondly, are all matters on the Parish Council open? The PC must take legal advice under a closed session, and also anything relating to the Clerks contracts and terms etc is not subject to having this discussed in an open meeting. This was double checked with the Senior Legal Officer/Monitoring Officer at SCDC who confirmed this was correct.</p> <p>Cllr Wragg to reply and end the matter.</p> <p>Mr Bottrill - the ditch in Chapel Lane has been cleared but not lowered as it still needs dredging.
